Integrated Digital Printing ICS

Date: 12 March 2004

Version **V0.26**

File: **DP-ICS-and-AppNote-v26-09-Mar-2004.doc, .pdf**

ICSVersion: **DP_L1-1.0**

Revisions are in **red** with change bars in the right margin.

The open ISSUES are **highlighted in green**.

Abstract

This CIP4 JDF Interoperability Conformance Specification (ICS) defines the interoperability requirements for a subset of JDF defined as Level 1 Integrated Digital Printing. Level 1 is useful for color and black and white integrated digital printing systems with in-line finishing capabilities. It encompasses production printing IPP semantics.

1 Introduction

JDF is a very comprehensive job ticket format that allows for many different ways to specify a digital print job. To minimize complexity and to better guarantee interoperability between JDF producers and consumers, this ICS identifies a relatively small subset of JDF for Digital Printing.

This ICS defines a subset of JDF referred to as Level 1.. Level 1 is useful for color and black and white integrated digital printing systems with in-line finishing capabilities. It encompasses production printing IPP semantics.

A companion Integrated Digital Printing Application Note [DP-AppNote] explains this ICS in more detail, but does not contain any normative material, i.e., does not contain any material that defines conformance to this ICS.

1.1 Scope

This ICS defines a subset of JDF referred to as Level 1. Level 1 is useful for color and black and white integrated digital printing systems with in-line finishing capabilities. It encompasses production printing IPP semantics.

2 Terminology

2.1 Conformance Terminology

See [BASE-ICS].

2.2 Other Terminology

This Conformance Specifications defines the following additional terminology:

Combined Digital Printing Node - A JDF *Combined* node (value of the Types attribute is "Combined") that contains a DigitalPrinting process and that conforms to the requirements of this ICS.

Conformance Level (Level for short) - a set of **REQUIRED** and **OPTIONAL Features** of an **Interface** for a **Device** to support that provide a certain level of service. If an **Interface** has multiple **Conformance Levels**, each higher **Conformance Level** is a superset of all the lower levels.

Controller/Agent as defined by the JDF Specification [JDF] is a JDF Controller/Agent that writes and routes JDF, representing a job, to a **Device**.

Device as defined in the JDF Specification [JDF] interprets JDF and executes instructions representing a job.

Level 1 Combined Digital Printing Node conforms to the requirements of the ICS for Digital Printing for Conformance Level 1.

Level 1 Controller/Agent conforms to the requirements of the ICS for Digital Printing for Conformance Level 1.

Level 1 Device conforms to the requirements of the ICS for Digital Printing for Conformance Level 1.

3 JDF Supported by Integrated Digital Printing ICS

In defining conformance for Digital Printing Devices, this ICS defines the JDF that the Integrated Digital Printing Device must support. This JDF includes all of the JDF that must be contained in a Combined Digital Printing Node, and also includes additional JDF that may optionally be contained in a Combined Digital Printing Node.

3.1 Combined Digital Printing Node

A conforming Device MUST execute a Combined Digital Printing Node.

3.1.1 Settings Policy

A conforming Device MUST support the SettingsPolicy attribute (and the BestEffortExceptions, MustHonorExceptions, and OperatorInterventionExceptions attributes) as supplied for that node or inherited from any parent node. However, such support is only REQUIRED for processes, elements, attributes, and attribute values included in this ICS.

3.1.2 Processes

A Combined Digital Printing Node MUST be a JDF *Combined* node as specified in [JDF].

3.1.2.1 Required Processes

A Combined Digital Printing Node MUST contain one and only one of each of the following processes:

1. LayoutPreparation
2. Imposition
3. Interpreting
4. Rendering
5. DigitalPrinting

3.1.2.2 Optional Finishing Processes

A Combined Digital Printing Node MAY contain 0 or more occurrences of each of the following processes:

1. Stitching
2. Folding
3. Trimming
4. HoleMaking
5. CoverApplication
6. SpineTaping

3.1.2.3 Other Optional Processes

A Combined Digital Printing Node MUST contain the indicated number of occurrences of each of the following processes:

1. Trapping - 0 or 1
2. Screening - 0 or 1
3. Approval - 0 or 1

3.1.2.4 Sequence of Processes

The following table shows the processes that are possible successors of other processes. The processes listed across the top of the table are the processes that are immediate predecessors of the processes listed along the left side. An X indicates that it is valid for the Successor process to follow the Predecessor process. The required processes are bold typeface.

Table 1 - Possible successor processes of each predecessor process

		Immediate Predecessor Process									
Successor Process	LayoutPreparation										
	Imposition	X		X							
	Trapping (vector)		X		X						
	Interpreting		X	X							
	Rendering			X	X						
	Trapping (raster)				X						
	Screening					X	X				
	DigitalPrinting					X	X	X			
	Stitching							X	X	X	X
	Folding							X	X	X	X
	Trimming							X	X	X	X
	HoleMaking							X	X	X	X
	CoverApplication							X	X	X	X
	SpineTaping							X	X	X	X
	Approval							X	X	X	X

3.1.3 JDF Conformance Tables for Integrated Digital Printing ICS

The following tables summarize the JDF resources and elements that are supported by the Integrated Digital Printing ICS. The tables follow the format as defined in the [BASE-ICS] for JDF Conformance Tables, except in the following cases:

1. Another column has been added that identifies the Feature(s) that are defined in the [DP-AppNote] that use the resource or element. This information is informative.
 2. In the [BASE-ICS] column 5 is titled "Controller". In the Integrated Digital Printing ICS the corresponding column is "Controller/Agent".

2	JDF/ ResourcePool/ LayoutPreparationParams/ InsertSheet/ Sheet/		refelement	W*	R	Error! Reference source not found. Error! Reference source not found.
3	Media ?		refelement	W*	R	Error! Reference source not found. Error! Reference source not found. Error! Reference source not found.

Table 46 SpineTapingParams

Item	Attribute (@) or Element	Notes	Data Type or Value (D=Default value)	Controller/ Agent	Device	Features where used

				Level 1	Level 1	
1	JDF/ ResourcePool/ SpineTapingParams/		element	W*	R?	Error! Reference source not found.
2	@NoOp ?		boolean	W?	R	same as above
3			false (D)	W?	R	same as above
4			true	W?	R	same as above
5	@PartIDKeys ?		enumerations	W*	R	same as above
6			DocIndex	W*	R	same as above
7			RunIndex	W*	R	same as above
8			DocIndex RunIndex	X	X	same as above

Table 47 StitchingParams

Item	Attribute (@) or Element	Notes	Data Type or Value (D=Default value)	Contri ller/ Agent	Devic e	Features where used
				Level 1	Level 1	
1	JDF/ ResourcePool/ StitchingParams/		element	W*	R?	Error! Reference source not found.
3	@NoOp ?		boolean	W?	R	same as above
4			false (D)	W?	R	same as above
5			true	W?	R	same as above
7	@PartIDKeys ?		enumerations	W*	R	same as above
8			DocIndex	W*	R	same as above
9			RunIndex	W*	R	same as above
10			DocIndex RunIndex	X	X	same as above
12	@StitchType ?		enumeration	W*	R	same as above
13			Corner	W*	R	same as above
14			Saddle	W*	R?	same as above
15			Side	W*	R?	same as above

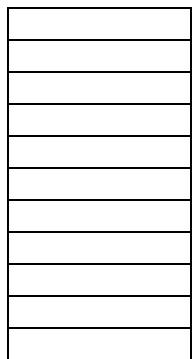

Table 48 TrappingDetails

Item	Attribute (@) or Element	Notes	Data Type or Value (D=Default value)	Contri ller/ Agent	Devic e	Features where used
				Level 1	Level 1	
1	JDF/ ResourcePool/ TrappingDetails/		element	W*	R?	Error! Reference source not found.
2	@NoOp ?		boolean	W*	R	same as above
3			false (D)	W*	R	same as above

Item	Attribute (@) or Element	Notes	Data Type or Value (D=Default value)	Contri ller/ Agent	Devic e	Features where used
				Level 1	Level 1	
4			true	W*	R	same as above
5	@PartIDKeys ?		enumerations	W*	R	same as above
6			DocIndex	W*	R	same as above
7			RunIndex	W*	R	same as above
8			DocIndex RunIndex	X	X	same as above

Table 49 TrimmingParams

Item	Attribute (@) or Element	Notes	Data Type or Value (D=Default value)	Contri ller/ Agent	Devic e	Features where used
				Level 1	Level 1	
1	JDF/ ResourcePool/ TrimmingParams/		element	W*	R?	Error! Reference source not found.
2	@NoOp ?		boolean	W*	R	same as above
3			false (D)	W*	R	same as above
4			true	W*	R	same as above
5	@PartIDKeys ?		enumerations	W*	R	same as above
6			DocIndex	W*	R	same as above
7			RunIndex	W*	R	same as above
8			DocIndex RunIndex	X	X	same as above

4 Conformance Requirements for <fill in your ICS>

See [JDF] section 1.4.2.4 Conformance Requirements for Support of Combined Processes. This section specifies the conformance requirements for Controller/Agents and Devices.

4.1 Conformance Requirements for Controller/Agents

[You MUST list the conformance requirements for the Producer of your Interface as one more Conformance Levels, Modules, and/or Profiles.]

A Controller/Agent conforming to this ICS:

1. MUST produce JDF instances that conform to [JDF].
2. MUST meet the conformance requirements for what a Controller produces and consumes according to section 3 of this ICS.
3. MAY produce and consume processes, elements, attributes, and attribute values *not* explicitly specified in section 3 of this ICS as long as the Controller/Agent has a mode of operation that the user can select or configure that always produces and consumes *only* the processes, elements, attributes, and attribute values *explicitly* specified in section 3.

4.2 Conformance Requirements for Devices

A Device conforming to this ICS:

1. MUST consume JDF instances according to [JDF].
2. MUST meet the conformance requirements for what a Device consumes and produces according to section 3 of this ICS.
3. MAY consume and produce processes, elements, attributes, and attribute values *not* explicitly specified in section 3 of this ICS as long as the Device has a mode of operation that the user can select or configure that always consumes and produces *only* the processes, elements, attributes, and attribute values *explicitly* specified in section 3.
