9  // =====
10 // CIM_PrintService
11 // =====
12 [Version ( "2.29.0" ),
13  UMLPackagePath ( "CIM::Device::Printing" ),
14  Description (
15    "The Service that provides support for printing. The basic "
16    "assumption of the Printing Model is that a PrintService "
17    "accepts a PrintJob for processing, using its PrintSAP. The Job "
18    "is then placed on a PrintQueue (that is indicated by the "
19    "QueueForPrintService association). Printers take Jobs from "
20    "Queues (indicated by the PrinterServicingQueue association). "
21    "The ABNF for CIM references to PWG Standards and MIBs is in "
22    "the directory \'ftp://ftp.pwg.org/pub/pwg/general/process\' in "
23    "the file \'pwg-cim-references-format-20060309.txt\'. An "
24    "example for a MappingStrings reference to a PWG Standard is "
25    "\'PWG5101-1.PWG|Section 4 Media Color Names\'. An example for "
26    "a MappingStrings reference to a PWG MIB is "
27    "\'MIB.PWG|PWG-IMAGING-COUNTER-MIB.icMonitorCompletedJobs\'.") ]
28 class CIM_PrintService : CIM_Service {
29
30     [Description (
31       "An array of free-form strings that specifies the types "
32       "and sizes of paper that can be used by Jobs that are "
33       "submitted to this PrintService. This list can be "
34       "different than the paper types that are installed on the "
35       "Printer, because the PrintService can include support "
36       "for manually making other types available or only a "
37       "subset of paper types can be exported using this "
38       "PrintService. The values of the property SHOULD conform "
39       "to the requirements of the PWG Media Standardized Names "
40       "specification [PWG5101.1], which defines the normative "
41       "values for this property. See older Appendix B \'Media "
42       "Size Names\' and Appendix C \'Media Names\' of IETF "
43       "Printer MIB v2 [RFC3805] which list the values of "
44       "standardized media names defined in ISO DPA [ISO10175].") ],
45     MappingStrings { "PWG5101-1.PWG|Media Standardized Names",
