

Workgroup for Imaging Management Solutions (WIMS/PMP) Status

August 6, 2012

Redmond, Washington - Microsoft

Introduction

- What WIMS is Doing
 - Supporting the existing IETF and PWG Printer and related MIB documents (PMP, FIN, JMP) including the advancement, extension and expansion of these standards.
 - Advancing a basic public management elements structure for Hardcopy Services and Devices that draws upon existing structures and that utilizes a set of management elements that is consistent over the various management interfaces.
 - Considering Hardcopy Device (MFD) management aspects in the light of changing usage, operational and security environments.
 - Coordinating Hardcopy Device and Service management aspects with the model, protocol and security efforts of other PWG Working Groups.
 - Correlating Hardcopy Device management aspects with other Device and Service management standards.
- What WIMS is NOT Doing
 - Addressing the delivery of Hardcopy services.
 - Defining a management service or protocol.
 - Dealing with security issues other than observing security requirements imposed on the management of Hardcopy Devices or Services by IDS, IEEE2600 or other applicable security group.
