Attendees

Bill Wagner	TIC
Ira McDonald	High North
Rick Landau	Dell
Craig Whittle	Sharp
Harry Lewis	IBM
Lee Farrell	Canon
Pete Zehler	Xerox

General Discussion

- Minutes from the February 16th teleconference were accepted.
- Ira submitted a revised draft of the white paper.
- CR changes to be made:
 - Ira to append "-" (hyphen) date to CR file name (until officially assigned a number from CIM Core).
 - Craig to shorten description to be changed per Rick's
 - Normative references will be moved to after the "Requested Change" section.
 - Change dependency list to empty or none
 - Leave reference to white paper in final CR
 - Add "line" to bracketed headings
 - Add summary table of changes and notes that point to future deprecation / change to be made to CR.

- Value section for MarkingTechnology is OK
- Ira to check to see if MappingStrings sections identified in the CR are complete (see Craig's notes).
- Do we need to add a reference to counter MIB PWG informational specification?

Next Steps / Open Actions:

- Next draft of white paper and CR to be reviewed in the next teleconference.
- Work to begin on additional classes (separate CRs) soon. Print service is next followed by queue and job. All of Phase I to be completed before Phase II.
- Next teleconference is scheduled for 3/9/06.
