### **General Discussion**

- There no minutes from the June 1<sup>st</sup> teleconference. Pete, Ira, Rick, and Harry attended last teleconference. Highlights follow:
  - Phase III should start with a “clean page” since the new and re-used properties will likely be experimental.
  - Rick sent a message to CIM Core asking about the scope (# of change) allowed changes to existing class/CR
- Face-to-face meeting next week to start “call for objections”
  - Whitepaper to be updated
  - Overview of CRs to be provided
  - Does Jerry need to send out “call for objections”?
    - Consensus: WG chair/co-chair can send out “call for objections” to last 3 weeks (22 calendar days) starting on Wednesday 6/21.

- Comments on the draft CRs
  - Use bold red strikethrough characters and additions in bold blue fonts.
  - Fix “add before” objects that have out-of-sync ending brackets (Ira to update the whitepaper)
  - Add “replace ranges” to clauses in CR where applicable

### **Next Steps / Open Actions:**

- Face-to-face meetings to be held next week (6/22-23). Bill will return for the meetings.
- Begin call for objections using Jerry’s previous e-mail as a model.
