

PWG WIMS Conference Call Minutes Sept 1, 2011

W.A. Wagner, Co-Chairman PWG WIMS/PMP

1 Attendees

Ira McDonald High North/Samsung
Glen Petrie Epon
Bill Wagner TIC
Pete Zehler Xerox
Danny Brennan, Co-Chair PWG WIMS/PMP (Secretary)

2 General

- 🕒 Meeting was convened at 1 PM EDT, Sept 1, 2011 and ended about 1:45 PM EDT
- 🕒 Notice was made that the meeting was held in accord with the PWG Intellectual Property Policy. There were no objections.
- 🕒 Minutes of the WIMS Aug 18 concall were accepted without comment

3 Action Items Review

- 🕒 Action: Ira and Peter to formulate fax modem alerts and reflect in Semantic Model (Reviewed today)
- 🕒 Action: Bill to Recast extracted data security information from MPSA User Access Control security article as start to MPSA Data Security article (ONGOING)

Discussion of Semantic Model

Ira stated that next week he'd be trying to setup meeting with Bangalore folks to review.

Ira checked other modem mib lists...and these looked good as a credible subset for the prototype.

Conformance requirements haven't changed.

IPP was placed into Section 6

Alert Codes (pg23) updated in section 9.2

PWG5100.xy (pg 24) is a mistake and Ira will correct.

Bill stated he would like to see a consolidated set that supports and implements 3805

Ira stated no new properties existed and that the printer alert tables are in the Iana PrinterMib

Pete stated that:

Must populate table (Iana/Prt)

Should we populate as persistent

What should be done about currently defunct values (Iana registry)

4 Next Steps

- 🕒 Next meeting will be convened at 1 PM EDT, Sept 15, 2011 will discuss upcoming Face 2 Face mtg
